**SUPPLEMENTARY INFORMATION:** The Occupational Requirements Survey (ORS) is a nationwide survey that the Bureau of Labor Statistics (BLS) is conducting at the request of the Social Security Administration (SSA). Estimates produced from the data collected by the ORS will be used by the SSA to update occupational requirements data for administering the Social Security Disability Insurance (SSDI) and Supplemental Security Income (SSI) programs. BLS is seeking approval to increase the ORS sample size for Fiscal Years 2022 and 2023 to mitigate the impacts of pandemic related non-response on survey estimates. To ensure sufficient data are collected to support final ORS estimates, BLS is now seeking approval to increase the ORS sample size for the group collected August 2022 through July 2023. New requirements would only take effect upon OMB approval. For additional substantive information about this ICR, see the related notice published in the *Federal Register* on January 28, 2021 (86 FR 7422).
